### Issues and resolutions:

On August 1, 2019, County Council approved continuing project development, including construction, of all except for six sidewalks (currently with status of "Planning") within the Sidewalk Category. After construction begins on all other sidewalks, County will need to determine remaining available funding within the Sidewalk Category and make decisions regarding the remaining six.

Originally, this project had six identified roads, but two were removed due to safety concerns and coordination with USC's bikeway planning program.
